

Montag, 5. März

Swiss Re
Ort: KOL-E-13
12.15 Uhr bis 13.00 Uhr, anschliessend Lunch

We are looking for...

...students and graduates with strong interpersonal skills, who distinguish themselves not just in terms of academic excellence, but in international experience, extra-curricular activities, interests and with very good language skills.

We are offering you...

...internship positions (interns@swissre) and the graduates@swissre programme in our core functions such as Underwriting, Reinsurance, Claims & Liabilities, Risk Management, Asset Management, Finance and in any other selected operational unit.

Founded in 1863 Swiss Re is one of the world's leading wholesale providers of reinsurance, insurance and other innovative forms of insurance-based risk transfer. Our business at Swiss Re is about understanding and analysing the major risks that concern the world – from natural catastrophes to climate change, from ageing populations to cybercrime. We combine experience with expertise and innovative thinking to create new opportunities and solutions for our clients. And we enable the risk-taking essential to enterprise and progress.

This is only possible with around 14,500 truly exceptional Swiss Re people worldwide. At Swiss Re you will meet and interact with people from different countries, with varying backgrounds and different professional experiences. Doctors, lawyers, engineers, actuaries, economists, mathematicians, chemists, geologists, meteorologists... you'll find them all working alongside you, allowing you to experience the uniqueness of each individual profession and Swiss Re's inclusive environment.

Earthquakes, tsunamis, drought and freezing weather can have devastating effects on entire countries. What can be done to make societies more resilient to natural disasters? Are there ways to adapt now to minimize the consequences in the future? It's global issues like this that make life so challenging and a job at Swiss Re so rewarding. Managing the impact of climate change and natural catastrophe risks means that we're always looking for great minds to join our team and help positively impact critical business and societal challenges. Graduates who aren't just skilled in their own discipline, but who will thrive in an environment that encourages people to share their expertise, insights and passions and enables them to unleash their potential. Could this be you? **Let's be smarter together.**
